

Cook Islands Christian Church

History:

The Cook Islands Christian Church played a major role in the expansion of Christianity in the Pacific in the 19th and early 20th centuries. From the late 1830s missionaries went out to Samoa, New Caledonia, Vanuatu and PNG, among other places.

Activities:

The Church is seeing that its mission challenge of the 21st century is to share the Christian faith with Cook Islanders in Australia and New Zealand who are in danger of leaving the Christian faith. The other major challenge to the Church is the impact of global culture on the life and culture of the Cook Islands. This has led to many social problems. The training program initiated by the Church for which they are seeking support for equipment is in response to these two major concerns.

The Cook Islands Christian Church currently has over 18,000 members.

The President is Rev Rev Tangimetua Tangatutai
