

Experience Placement Position Description

Category Computers/IT

Country Solomon Islands

Placement Computing Skills trainer

Length of Placement 3-12 months

Reference Number 063

Are you a computer geek? Well, your life may suddenly become even more exciting if you respond to this placement! UnitingWorld's partner church in the Solomon Islands is wanting people who can assist them in developing some basic computing skills. This includes use of standard computing software as well as possibly assisting in training locals in how to rectify simple computer faults and hardware issues. You may be available for a short placement of 2-3 months or for a longer 12 month training placement.
