

Experience Placement Position Description

Category Library

Country Cook Islands

Placement Archivist

Length of Placement 6-12 months

Reference Number 106

This is a fantastic position for someone with an archivist/library background. The CCIC (our church partner in the Cook Islands), has many useful and valuable old records of births, deaths and marriages for a period from the 1850's to about 1920's when the government established a registry for births, deaths and marriages. Many researchers and families often seek these church records but they are not organized and able to be resourced. They need someone who can put these into some sort of system that will allow the church and community to make this information easily accessible.
