

Experience Placement Position Description

Category Music/choir

Country Cook Islands

Placement Choir Master

Length of Placement 6 months

Reference Number 108

A much needed person for the Cook Islands church is a choir master - someone who could train their choirmasters to sing the "European way" i.e. with sopranos, altos, tenors, and bass, using proper musical backings. They use traditional hymns which are highly valued but are keen to have someone work with them on harmonization and singing in parts with refined styles. What a wonderful opportunity to have fun and make a difference!
